

What is wrong with these stupid people in Wisconsin? Don't they understand what "DO NOT CALL" means? I think the Wisconsin law is better than the federal law since it is more restrictive. I fully support the Wisconsin law as it stands and do not want any change. It has been a pleasure since the law has taken effect to not be bothered by these stupid telemarketers. I do not want this to change. If it does, I intend to use a new technique by being downright nasty to anyone that calls me and hope they are offended and will never call again.
